

Assignment – 2.3

Q - 1. List 5 common issues users face with USB keyboards or mice on laptops, and write one possible solution for each.

<u>Common Issue</u>	<u>Possible Solution</u>
Keyboard/mouse not working	Unplug it and connect it to another USB port.
USB device is not detected	Restart the laptop and reconnect the device.
Keyboard keys are not responding	Clean the keyboard and check for stuck keys.
Mouse cursor is not moving	Check the mouse sensor and try a different USB port.
Device keeps disconnecting	Check the USB cable for damage or try another keyboard/mouse.

Q - 2. Simulate a troubleshooting flow: Your Bluetooth headphones are not connecting to your phone. Write the exact step-by-step actions you would take to diagnose and fix the issue, mentioning any settings or indicators you would check.

Bluetooth Headphones Troubleshooting:

1. **Turn ON Bluetooth** on your phone.
2. **Turn ON headphones** and check the pairing light.
3. Put headphones in **Pairing Mode**.
4. Open **Settings** → **Bluetooth** and select the headphones.
5. If not connected, **Forget/Unpair** the headphones.
6. Turn Bluetooth **OFF and ON** again.
7. **Restart** the phone and headphones.
8. Try connecting again.
9. If still not working, **test the headphones with another phone**.

Q - 3. A user reports that their external webcam is not detected during a Zoom call on Windows 10. Write a checklist of 6 things to check or try to resolve the problem.

- ✓ **Check the USB connection** – Unplug and reconnect the webcam, or try another USB port.
- ✓ **Check Device Manager** – Make sure the webcam appears under **Cameras** or **Imaging Devices**. Update its driver if needed.
- ✓ **Check Windows privacy settings** – Go to **Settings** → **Privacy** → **Camera** and allow camera access.
- ✓ **Check app permissions** – Make sure **Zoom** is allowed to use the camera.
- ✓ **Check Zoom camera settings** – Open Zoom → **Settings** → **Video** and select the correct webcam.
- ✓ **Restart and test** – Restart the computer and test the webcam in another app, such as the Windows Camera app.

Q - 4. You are helping a friend whose printer is showing 'offline' status on their PC. Describe how you would use the Windows Troubleshooter tool to try to fix the issue, and explain what information the tool provides during the process.

- 1. Open Settings → Devices → Printers & scanners.**
- 2. Select the printer and click Manage.**
- 3. Click Run the troubleshooter.**
- 4. Windows checks for problems such as:**
 - Printer connection
 - Driver problems
 - Print spooler issues
 - Printer being set to offline
- 5. Follow the suggested fixes and apply them.**
- 6. Try printing a test page again.**
