

Assignment – 2.1

Q - 1. Create a table listing 3 types of printers, 2 types of scanners, and 2 types of webcams, and for each, write one real-life use case.

Types of Printer :

Type	Real – Life Use Case
Inkjet Printer	Printing college assignments and color photos
Laser Printer	Printing many office documents quickly
Thermal Printer	Printing shop bills and receipts

Types of Scanner :

Type	Real – Life Use Case
Flatbed Scanner	Scanning certificates and documents
Sheet-fed Scanner	Scanning multiple pages of office documents

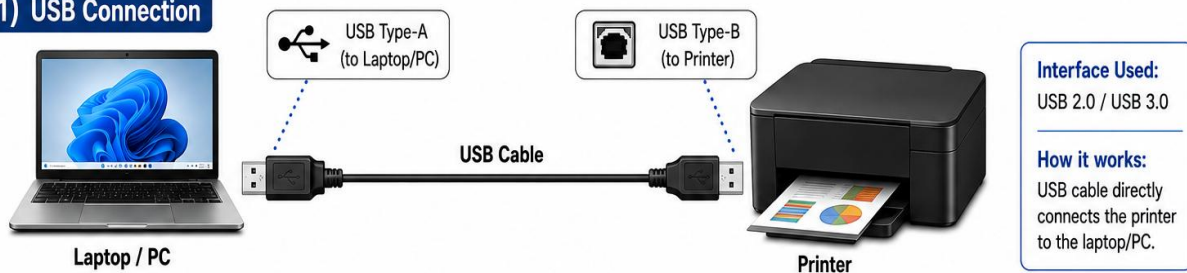

Types of Webcam :

Type	Real – Life Use Case
Built-in Webcam	Attending online classes on a laptop
USB External Webcam	Video calls and online meetings on a desktop PC

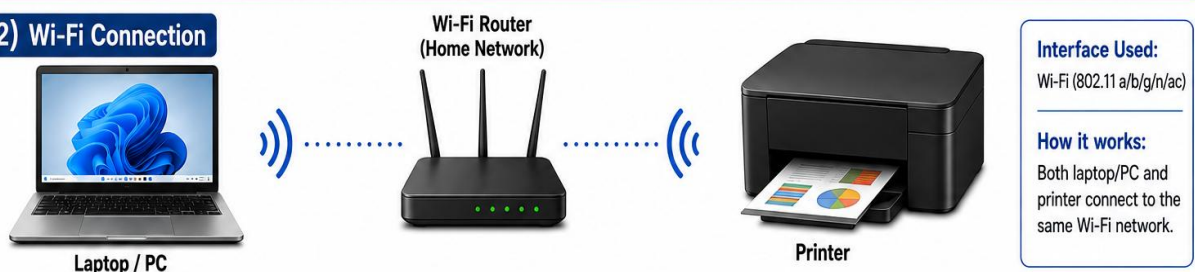

Q - 2. Draw a labeled diagram showing how a typical home printer connects to a laptop or PC, including the connection interface used (USB, Wi-Fi, or Bluetooth).

How a Home Printer Connects to a Laptop/PC

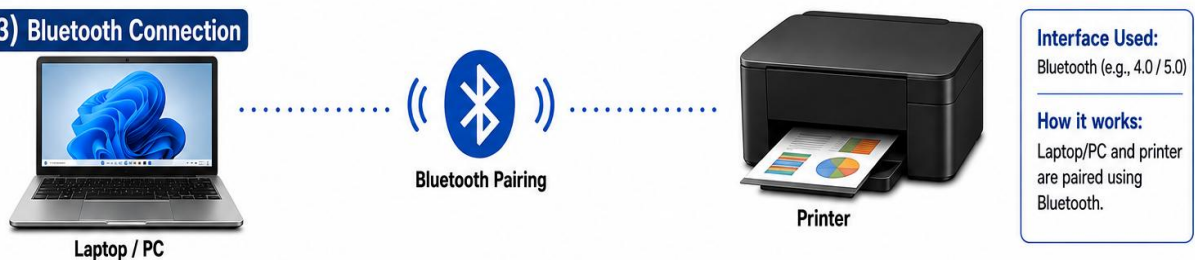

1) USB Connection

2) Wi-Fi Connection

3) Bluetooth Connection

Q - 3. List three different connection interfaces (such as USB, Wi-Fi, Bluetooth) used by peripherals like printers, scanners, and webcams, and for each, name one advantage and one disadvantage. Hint: Think about speed, convenience, and compatibility.

Interface	Advantage	Disadvantage
USB	Fast and reliable connection; easy to set up	Requires a physical cable
Wi-Fi	Wireless and allows multiple devices to use the printer	Requires a Wi-Fi network and setup
Bluetooth	Convenient wireless connection over a short distance	Shorter range and generally slower than wired USB

Q - 4. Pick any one device you use at home or college (printer, scanner, or webcam). Write step-by-step instructions for how you would connect it to your computer, including what cable or wireless method you would use and any setup steps required.

Device chosen: Printer

Connection method: USB cable

1. Place the printer near the computer and connect it to a power source.
2. Turn on the printer.
3. Take a **USB printer cable** and connect one end to the printer.
4. Connect the other end of the USB cable to the computer.
5. Wait for the computer to detect the printer automatically.
6. If required, install the printer driver or software provided by the manufacturer.
7. Open **Settings → Bluetooth & devices → Printers & scanners** on Windows.

8. Select the connected printer and set it as the default printer if needed.
9. Print a **test page** to check that the connection is working properly.
